

This annual management report of fund performance contains financial highlights, but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling us toll free at 1-866-378-7119, by writing to us at NGAM Canada LP (formerly NexGen Financial Limited Partnership or the "Manager"), 36 Toronto Street, Suite 1070, Toronto, ON., M5C 2C5, or by visiting our website at www.nexgenfinancial.ca or SEDAR at www.sedar.com. Securityholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and conditions. Forward-looking statements are statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risk, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, capital markets, business competition, technological changes, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events.

We stress that the above-mentioned list is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise.

Management Discussion of Fund Performance

Investment Objective and Strategies

The investment objective of the NexGen Canadian Cash Tax Managed Fund (the "Fund" or the "Tax Managed Fund") is to pursue a steady flow of income while preserving capital primarily through investment in short term Canadian fixed income securities. J. Zechner Associates Inc. ("Zechner" or the "Sub-Advisor"), the sub-advisor to the Fund, employs investment strategies which analyze the expected direction of interest rates, the relative value between various terms to maturity and individual issues in managing the Fund.

Results of Operations

The Fund's net asset value increased during the year from \$7,059,000 to \$10,042,000. This increase was a result of net sales.

The Regular Series of the Fund returned 0.2% compared to a 0.6% return on its benchmark, the FTSE TMX Canada 30 Day T-Bill Index (the "Benchmark"), from which fees and expenses are not deducted. See the section titled "Past Performance" for a detailed summary of the performance of the Fund.

The Bank of Canada surprised the market in January by lowering its overnight target interest rate by 25 basis points. The Bank reduced rates a second time in July in an effort to offset the impact of falling oil prices on the Canadian economy. At the time, the Bank acknowledged that lower rates would have little benefit to the struggling Canadian energy sector, but in the absence of government fiscal or industrial stimulus measures, it felt it needed to act with the only tool it had. The two rate reductions resulted in the yield on 30-day Canada Treasury Bills declining from 0.90% at the start of the year to 0.48% at the end of it.

Recent Developments

The Bank of Canada has shown its willingness to cut interest rates in a mostly futile effort to offset the impact of falling oil prices. In doing so, the Bank ignored the potential long term risks of further inflating what may be a housing bubble and encouraging over-leveraged households to add even more debt. The interest rates reductions in January and July contributed to a substantial drop in the Canadian exchange rate during 2015, but the hoped for pickup in exports has yet to materialize. Given the lack of growth in the Canadian economy, the sub-adviser believes there is a risk that the Bank will choose to reduce interest rates again in the coming months. In the near term, the Bank is likely to wait until the new federal government reveals its promised fiscal stimulus package.

The Fund remains invested in a combination of federal and provincial Treasury Bills, high quality commercial paper, and Canadian Bankers Acceptances.

Related Party Transactions

NGAM Canada LP (formerly NexGen Financial Limited Partnership or the "Manager") provides investment management, distribution and administrative services to the Fund. These services are provided in the normal course of operations and are recorded at the amount of consideration agreed to by the Manager and the Fund. National Instrument 81-107 requires the Fund, to establish an independent review committee ("IRC") to whom the Fund must refer all conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintain records in respect of these matters, and provide assistance to the IRC in carrying out its functions.

Management Fees

NGAM Canada LP is the manager of the Fund. In consideration for the investment advisory services provided, the Manager receives a monthly management fee based on the daily average net assets of each series of the Fund, other than the Institutional series. From its management fees, the Manager pays the cost of portfolio manager compensation, and sales and trailing commissions to dealers who distribute securities of the Fund. In consideration for other administrative services provided, the Manager may also charge an administrative fee to the Funds.

From time to time, the Manager may reduce the effective management fee payable by some shareholders by reducing the management fee it charges to the Fund, directing the Fund to make management fee distributions to these shareholders, or by rebating these fees back to the Fund in amounts equal to the management fee reduction. Management fee distributions are automatically reinvested in additional shares of the Fund and are accounted for as distributions for financial statement purposes.

Fund Operating Expenses

Each Fund is responsible for the payment of all operating expenses including, but not limited to, taxes, accounting fees, legal fees, audit fees, trustee fees, IRC fees, custodial fees, administrative costs, investor servicing costs, broker commissions, interest and bank charges, and costs of reports and prospectuses. In consideration for other administrative services provided, the Manager may also charge an administrative fee to the Funds. The Manager allocates to the Fund certain overhead costs which are directly related to the operation of the Fund (excluding marketing and sales). Those overhead costs would include a portion of the Manager's IT computer software, systems and staff salaries, facilities, insurance (property and liability only), depreciation on fixed assets, data and telephone, printing, office and other general administrative costs.

Operating expenses are attributed to a Fund, or a Fund's series. Common operating expenses of the Funds may be allocated among each fund based on the average number of securityholders or the average daily net asset value of that fund, or other methods of allocation that the Manager deems appropriate, depending on the type of operating expenses being allocated.

Expenses Absorbed

The Manager may waive or absorb a portion of the management fees or operating expenses for certain funds. The decision to absorb these expenses is reviewed periodically and determined at the discretion of the Manager, without notice to shareholders.

The related party fees charged are as follows:

	December 31, 2015	December 31, 2014
Management fees	41,831	68,050
Administrative services provided by the Manager	16,945	22,900
Fund expenses absorbed by the Manager	(69,289)	(75,080)

Other Information

Change of Control of the Manager

In December 2014, Natixis Global Asset Management, L.P. acquired all the outstanding common shares of Natixis Global Asset Management Canada Corp (formerly NexGen Financial Corporation), the parent company of the Manager, thereby resulting in a change of control of the Manager.

In August 2015, the name of the parent company of the Manager changed to Natixis Global Asset Management Canada Corp from NexGen Financial Corporation.

Securities Lending

Certain NexGen funds may enter into securities lending transactions. These transactions permit the Fund to earn fees in exchange for an agreement to lend securities to a third party which are returnable to the Fund on demand in exchange for prescribed collateral. The value of non-cash securities held as collateral must be at least 102% of the fair value of the securities loaned. Income is earned from these transactions in the form of fees paid by the counterparty. Income earned from these transactions is included in the Statement of Comprehensive Income of the Fund's financial statements.

Management Fees and Series Description

The Fund has one publicly offered class. The class has eight series: Regular, Regular F, High Net Worth, High Net Worth F, Ultra High Net Worth, Institutional, Deferred Load and Low Load Series. (The Fund commenced offering the Low Load Series on March 8, 2010).

Management fees differ among the Fund's series of shares. The Fund pays the Manager an aggregate management fee. Management fees for the Institutional Series are negotiated and paid directly by the investor, not by the Fund. From its management fees, the Manager pays the costs of portfolio manager compensation, and sales and trailing commissions to dealers who distribute securities of the Fund.

Series	As a Percentage of Management Fees			
	Current Prospectus (%)	Actually Charged (%)*	Dealer Compensation (%)	General Administration, Investment Advice and Profit (%)
Regular, Deferred and Low Load	1.00	0.35	51	49
Regular F	0.65	0.35	0	100
High Net Worth	0.85	0.35	62	38
High Net Worth F	0.50	0.35	0	100
Ultra High Net Worth	0.80	0.35	54	46

* Average rate charged during 2015.

Past Performance

The past performance shows historical performance of each series of shares of the Fund. This information is provided to show the past performance only and does not necessarily indicate how the Fund will perform in the future. The past performance information assumes that all distributions were reinvested in additional shares of the same series of the Fund. The past performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following charts illustrate the annual performance of each series of shares of the Fund since its retail inception date - September 5, 2006. The charts show, in percentage terms, how much an investment made on the first day of each financial period would have increased or decreased by the last day of each financial period. *(Performance for the Regular F Series and the High Net Worth F Series for 2007 covers the period from July 1 to December 31, 2007. Performance for the Low Load Series for 2010 covers the period from March 8 to December 31, 2010).*

■ Dec 31 '06 ■ Dec 31 '07 ■ Dec 31 '08 □ Dec 31 '09 ■ Dec 31 '10 ■ Dec 31 '11 ■ Dec 31 '12 □ Dec 31 '13 ■ Dec 31 '14 ■ Dec 31 '15

Annual Compound Returns

The following table shows the annual compounded total return for each series currently offered by the Fund for each of the years shown, ending on December 31, 2015. The annual compound total return is also compared to the Benchmark on the same compound basis.

Series ¹	1 year	3 year	5 year	Since Inception ³
Regular	0.2%	0.2%	0.2%	0.8%
Deferred Load	0.2%	0.2%	0.2%	0.7%
Regular F	0.5%	0.5%	0.5%	0.8%
High Net Worth	0.2%	0.3%	0.3%	0.9%
High Net Worth F	0.5%	0.6%	0.6%	0.9%
Ultra High Net Worth	0.3%	0.4%	0.4%	1.0%
Institutional	0.9%	1.2%	1.3%	1.8%
Low Load	0.2%	0.2%	0.2%	0.2%

	1 year	3 year	5 year	Since Inception ³	Since July 1, 2007 ³	Since March 8, 2010 ³
Return of Benchmark ²	0.6%	0.8%	0.8%	1.4%	1.1%	0.8%

¹ Net of all fees and expenses paid by the Fund other than the Institutional Series where performance is reported gross of fees negotiated and paid directly by the investor.

² The FTSE TMX Canada 30 Day T-Bill Index is an index of Government of Canada treasury bills with maturities of less than 30 days.

³ Annual compound returns since inception for all series are from the retail inception date - September 5, 2006, other than the Regular F and High Net Worth F Series which are from July 1, 2007, and for the Low Load Series which is from March 8, 2010.

Financial Highlights⁺

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the year or period ending dates indicated.

Financial Highlights

* For financial periods beginning on or after January 1, 2014, financial highlight information is derived from financial statements prepared in compliance with International Financial Reporting Standards ("IFRS"). For the comparative 2013 financial period, beginning and ending Net Assets per share have been changed to reflect the adoption of IFRS, and for financial periods preceding January 1, 2013, financial highlight information is derived from financial statements prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). Net Assets per share, for the periods prior to January 1, 2013, are calculated in accordance with GAAP, and Net Asset Value in the Ratios and Supplemental Data table is presented based on that used for transactional purposes. All other calculations for the purposes of this MRFP are made using Net Asset Value. As at December 31, 2015 there was no significant difference between "Net Assets" and "Net Asset Value" under IFRS.

Net Assets Per Share footnotes

- ¹ This information is derived from the Fund's audited annual financial statements as at December 31 of the years shown. The net assets per share for periods preceding January 1, 2013 presented in the financial statements may differ from the net asset value calculated for fund pricing purposes as a result of adopting the requirements under Section 3855 of the CICA Handbook, Financial Instruments – Recognition and Measurement.
 - ² Net assets and distributions are based on the actual amount of shares at the relevant time. The increase (decrease) from operations is based on the weighted average number of shares outstanding over the financial period.
 - ³ Distributions were reinvested in additional shares of the Fund, unless the investor requested payment in cash.
- * This is not a reconciliation of the beginning and ending net assets per share as the increase (decrease) from operations data is based on the weighted average number of shares during the period rather than actual share amounts at the relevant time.

Ratios and Supplemental Data footnotes

- ¹ The information is provided as at December 31 of the years shown.
- ² Total Net Asset Value and Net Asset Value per share for periods preceding January 1, 2013, are presented based on transactional NAV which may differ from amounts in the financial statements as a result of adopting the requirements under Section 3855 of the CICA Handbook, Financial Instruments – Recognition and Measurement.
- ³ The management expense ratio (MER) is calculated in accordance with National Instrument 81-106 and is based on total expenses (excluding distributions, commissions, portfolio transaction costs and forward fees as applicable) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. In a period where a series is established, the management fee ratio is annualized from the date of inception to the end of the period.

The Manager may authorize a reduction in the management fees and/or operating expense rates generally for certain investors of the Fund who pay or incur distribution or other expenses normally paid by the Fund or the Manager. In this case, if the Manager reduces or rebates a portion of the management fee, the Fund or the Manager pays an amount equal to the reduction either as a distribution or as a direct rebate. The MER does not take this type of reduction into account.

The Manager may temporarily reduce or absorb all or any portion of the management fee and/or operating expenses of the Fund and can terminate the reduction or absorption at any time. The Manager expects to continue to absorb these fees or expenses until such time as the Fund is of sufficient size to reasonably absorb all fees and expenses.
- ⁴ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Transactional NAV during the period.
- ⁵ The Fund's portfolio turnover rate indicates how the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in the period, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
