

This annual management report of fund performance contains financial highlights, but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling us toll free at 1-866-378-7119, by writing to us at NGAM Canada LP (formerly NexGen Financial Limited Partnership or the "Manager"), 36 Toronto Street, Suite 1070, Toronto, ON., M5C 2C5, or by visiting our website at www.nexgenfinancial.ca or SEDAR at www.sedar.com. Securityholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and conditions. Forward-looking statements are statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "plans", "believes", "estimates" or negative versions thereof and similar expressions. In addition, any statement that may be concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risk, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, capital markets, business competition, technological changes, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events.

We stress that the above-mentioned list is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise.

Management Discussion of Fund Performance

The NexGen Turtle Canadian Balanced Registered Fund (the "Fund") invests directly in shares and debt of the NexGen Turtle Canadian Balanced Tax Managed Fund (the "Tax Managed Fund") having a similar investment objective. Accordingly, the Management Discussion of Fund Performance that follows represents generally that of the Tax Managed Fund with the exception of the sections titled Investment Objectives and Strategies, Risk, Financial Highlights, Management Fees and Series Description and Past Performance which are specific to the Fund. Within the section titled Results of Operations, the net asset value and performance figures discussed also relate specifically to the Fund. For information specific to the Tax Managed Fund please refer to the Management Report of Fund Performance of the Tax Managed Fund.

Investment Objective and Strategies

The investment objective of the Fund is to provide a combination of capital preservation, income generation and long-term capital growth primarily through investment in a diversified portfolio of Canadian securities. The Fund will seek to achieve the investment objective through the investment of substantially all of its portfolio assets in the non-publicly offered debt and shares of the Inter-Fund Class of the Tax Managed Fund. The Tax Managed Fund's sub-advisors, Rondeau Capital Inc. ("Rondeau" or the "equity Sub-Advisor") and J. Zechner Associates Inc. ("Zechner" or the "fixed income Sub-Advisor"), co-manage the Tax Managed Fund's portfolio.

Rondeau uses primarily a "bottom up" stock picking portfolio construction and management process that focuses on fundamental analysis and valuation of individual companies. Zechner will use investment strategies analyzing the expected direction of interest rates, the relative value between various terms to maturity, the relative value of individual issues and the relative value of different bond market sectors.

Results of Operations

The Fund's net asset value increased during the year from \$13,921,000 to \$17,514,000. This increase was a result of a combination of fund merger activity offset by a negative return on investments and net redemptions.

The Regular Series of the Fund returned -2.9% compared to a -2.5% return on its benchmark, a 50%/50% blend of the S&P/TSX Composite Total Return Index and the FTSE TMX Canada Universe Bond Index (the "Benchmark"), from which fees and expenses are not deducted. See the section titled "Past Performance" for a detailed summary of the performance of the Fund.

In the rising markets at the beginning of the year the Fund's conservative positioning acted as a drag on the performance of the Fund. This conservative positioning however was beneficial on a relative basis in the sharply declining markets that punctuated the back half of 2015. The Fund's significant underweight position in the energy sector was a positive contributor to its relative performance as this sector was very hard hit with the sharp decline in the price of oil. The Fund also benefited by its US Equity exposure that was helped by the severe decline in the level of the CDN\$ relative to the US\$. In addition, the Fund's large cash weighting helped preserve capital in the declining markets. The equity sub advisor follows a disciplined approach in terms of security selection and in light of elevated valuations and a weak macro-economic environment has been unable to find enough attractive opportunities to fully invest the Fund. With the recent declines in the equity markets more opportunities are beginning to present themselves and the equity sub advisor is actively analyzing many of these.

Equity holdings that were good performers for the Fund in 2015 included Metro and Intact Financial in Canada and Paypal & Medtronic in the US. Metro & Intact demonstrated strong operating performance and have little correlation to the weak resource environment in Canada. Paypal and Medtronic not only showed strong operating performance but benefited by strategic initiatives as Paypal was split off from Ebay and Medtronic competed its large acquisition of Covidien

Recent Developments

The equity sub advisor remains extremely cautious in its outlook and believes that significant macroeconomic related risks exist that could severely impact the financial markets. Even with the recent pullback in the equity markets valuations remain at elevated levels and the sub advisor does not see the difficult operational fundamentals and muted growth accurately reflected in equity prices. Long term structural challenges such as weakening demographics, elevated debt levels, 0% interest rates, and rising geopolitical tensions mean that we are in a "Headwinds" type of investing environment as opposed to a "Tailwinds" one. The equity sub advisor believes that its focus on capital growth at a conservative pace is the right one in this type of environment.

Fund Merger

On June 5, 2015, the Fund merged with the NexGen Turtle Canadian Equity Registered Fund. As a result of the merger, the Fund's net asset value increased by \$8,754,167.

Related Party Transactions

NGAM Canada LP (formerly NexGen Financial Limited Partnership or the "Manager") provides investment management, distribution and administrative services to the Fund. These services are provided in the normal course of operations and are recorded at the amount of consideration agreed to by the Manager and the Fund. National Instrument 81-107 requires the Fund, to establish an independent review committee ("IRC") to whom the Fund must refer all conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintain records in respect of these matters, and provide assistance to the IRC in carrying out its functions.

Management Fees

NGAM Canada LP is the manager of the Fund. In consideration for the investment advisory services provided, the Manager receives a monthly management fee based on the daily average net assets of each series of the Fund, other than the Institutional series. From its management fees, the Manager pays the cost of portfolio manager compensation, and sales and trailing commissions to dealers who distribute securities of the Fund. In consideration for other administrative services provided, the Manager may also charge an administrative fee to the Funds.

From time to time, the Manager may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund, directing the Fund to make management fee distributions to these unitholders, or by rebating these fees back to the Fund in amounts equal to the management fee reduction. Management fee distributions are automatically reinvested in additional units of the Fund and are accounted for as distributions for financial statement purposes.

Fund Operating Expenses

Each Fund is responsible for the payment of all operating expenses including, but not limited to, taxes, accounting fees, legal fees, audit fees, trustee fees, IRC fees, custodial fees, administrative costs, investor servicing costs, broker commissions, interest and bank charges, and costs of reports and prospectuses. In consideration for other administrative services provided, the Manager may also charge an administrative fee to the Funds. The Manager allocates to the Fund certain overhead costs which are directly related to the operation of the Fund (excluding marketing and sales). Those overhead costs would include a portion of the Manager's IT computer software, systems and staff salaries, facilities, insurance (property and liability only), depreciation on fixed assets, data and telephone, printing, office and other general administrative costs.

Operating expenses are attributed to a Fund, or a Fund's series. Common operating expenses of the Funds may be allocated among each fund based on the average number of securityholders or the average daily net asset value of that fund, or other methods of allocation that the Manager deems appropriate, depending on the type of operating expenses being allocated.

Expenses Absorbed

The Manager may waive or absorb a portion of the management fees or operating expenses for certain funds. The decision to absorb these expenses is reviewed periodically and determined at the discretion of the Manager, without notice to unitholders.

The related party fees charged are as follows:

	December 31, 2015	December 31, 2014
Management fees	330,164	301,434
Administrative services provided by the Manager	15,841	22,303
Fund expenses absorbed by the Manager	(51,849)	(21,721)

Other Information

Change of Control of the Manager

In December 2014, Natixis Global Asset Management, L.P. acquired all the outstanding common shares of Natixis Global Asset Management Canada Corp (formerly NexGen Financial Corporation), the parent company of the Manager, thereby resulting in a change of control of the Manager.

In August 2015, the name of the parent company of the Manager changed to Natixis Global Asset Management Canada Corp from NexGen Financial Corporation.

Notional Distributions

The Fund's annual distribution may be paid in the form of a notional distribution. A notional distribution occurs when a fund declares a distribution in additional units and then completes a concurrent unit consolidation such that the number of units outstanding after the consolidation is identical to the number of units held before the distribution was paid. The net asset value per unit is not affected by the notional distribution.

Management Fees and Series Description

The Fund currently offers eight series of units: Regular, Regular F, High Net Worth, High Net Worth F, Ultra High Net Worth, Institutional, Deferred Load and Low Load Series. (The Fund commenced offering the Institutional Series on December 1, 2010).

Management fees differ among the Fund's series of units. The Fund pays the Manager an aggregate management fee. Management fees for the Institutional Series units are negotiated and paid directly by the investor, not by the Fund. From its management fees, the Manager pays the costs of portfolio manager compensation, and sales and trailing commissions to dealers who distribute securities of the Fund.

As a Percentage of Management Fees

Series	Management Fee (%)	Dealer Compensation (%)	General Administration, Investment Advice and Profit (%)
Regular, Deferred and Low Load	2.00	41	59
Regular F	1.00	0	100
High Net Worth	1.75	57	43
High Net Worth F	0.75	0	100
Ultra High Net Worth	1.50	49	51

Summary of Investment Portfolio at December 31, 2015

The Fund invests directly in the Tax Managed Fund. The top 25 largest holdings by percentage of net asset value and sector allocation of this fund are listed below. The prospectus and other information about the Tax Managed Fund is available at www.nexgenfinancial.ca or www.sedar.com.

The Summary of Investment Portfolio may change due to ongoing portfolio transactions of the Fund. Past Performance

The past performance shows historical performance of each series of units of the Fund. This information is provided to show the past performance only and does not necessarily indicate how the Fund will perform in the future. The past performance information assumes that all distributions were reinvested in additional units of the same series of the Fund. The past performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart illustrates the annual performance of each series of units of the Fund since its retail inception date - May 31, 2010. The chart shows, in percentage terms, how much an investment made on the first day of each financial period would have increased or decreased by the last day of each financial period. (Performance for the Institutional Series for 2010 covers the period from December 1, 2010 to December 31, 2010).

Annual Compound Returns

The following table shows the annual compounded total return for each series currently offered by the Fund for each of the years shown, ending on December 31, 2015. The annual compound total return is also compared to the Benchmark on the same compound basis.

Series ¹	1 year	3 year	5 year	Since Inception ³
Regular, Deferred and Low Load	-2.9%	2.4%	2.2%	2.2%
Regular F	-1.8%	3.6%	3.4%	3.4%
High Net Worth	-2.7%	2.8%	2.5%	2.6%
High Net Worth F	-1.6%	4.0%	3.7%	3.7%
Ultra High Net Worth	-2.4%	3.1%	2.9%	3.0%
Institutional	-0.7%	5.0%	4.9%	5.0%

	1 year	3 year	5 year	Since Inception ³	Since December 1, 2010 ³
Return of Benchmark ²	-2.5%	4.2%	3.7%	5.1%	3.9%

¹ Net of all fees and expenses paid by the Fund other than the Institutional Series where performance is reported gross of fees negotiated and paid directly by the investor.

² This blended benchmark is comprised of 50% of the S&P/TSX Composite Total Return Index and 50% of the FTSE TMX Canada Universe Bond Index. The S&P TSX Composite Total Return Index is a capitalization-weighted index that represents some the largest float-adjusted stock trading on the Toronto Stock Exchange. Company size and liquidity are the chief attributes determining index membership. The FTSE TMX Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes approximately 1,000 federal, provincial, municipal and corporate bonds rated "BBB" or higher.

³ Annual compound returns since inception for all series are from the retail inception date - May 31, 2010, other than the Institutional Series which is from December 1, 2010.

Financial Highlights⁺

Financial Highlights

* For financial periods beginning on or after January 1, 2014, financial highlight information is derived from financial statements prepared in compliance with International Financial Reporting Standards ("IFRS"). For the comparative 2013 financial period, beginning and ending Net Assets per unit have been changed to reflect the adoption of IFRS, and for financial periods preceding January 1, 2013, financial highlight information is derived from financial statements prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). Net Assets per unit, for the periods prior to January 1, 2013, are calculated in accordance with GAAP, and Net Asset Value in the Ratios and Supplemental Data table is presented based on that used for transactional purposes. All other calculations for the purposes of this MRFP are made using Net Asset Value. As at December 31, 2015 there was no significant difference between "Net Assets" and "Net Asset Value" under IFRS.

Net Assets Per Unit footnotes

- ¹ This information is derived from the Fund's audited annual financial statements as at December 31 of the years shown. The net assets per unit for periods preceding January 1, 2013 presented in the financial statements may differ from the net asset value calculated for fund pricing purposes as a result of adopting the requirements under Section 3855 of the CICA Handbook, Financial Instruments – Recognition and Measurement.
- ² Net assets and distributions are based on the actual amount of units at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- ³ Distributions were reinvested in additional units of the Fund, unless the investor requested payment in cash.
- * This is not a reconciliation of the beginning and ending net assets per unit as the increase (decrease) from operations data is based on the weighted average number of units during the period rather than actual unit amounts at the relevant time.

Ratios and Supplemental Data footnotes

- ¹ The information is provided as at December 31 of the years shown.
- ² Total Net Asset Value and Net Asset Value per unit for periods preceding January 1, 2013, are presented based on transactional NAV which may differ from amounts in the financial statements as a result of adopting the requirements under Section 3855 of the CICA Handbook, Financial Instruments – Recognition and Measurement.
- ³ The management expense ratio (MER) is calculated in accordance with National Instrument 81-106 and is based on total expenses (excluding distributions, commissions, portfolio transaction costs and forward fees as applicable) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. In a period where a series is established, the management fee ratio is annualized from the date of inception to the end of the period.

The Manager may authorize a reduction in the management fees and/or operating expense rates generally for certain investors of the Fund who pay or incur distribution or other expenses normally paid by the Fund or the Manager. In this case, if the Manager reduces or rebates a portion of the management fee, the Fund or the Manager pays an amount equal to the reduction either as a distribution or as a direct rebate. The MER does not take this type of reduction into account.

The Manager may temporarily reduce or absorb all or any portion of the management fee and/or operating expenses of the Fund and can terminate the reduction or absorption at any time. The Manager expects to continue to absorb these fees or expenses until such time as the Fund is of sufficient size to reasonably absorb all fees and expenses.
- ⁴ The Fund invests in shares and debt of the Tax Managed Fund and does not directly incur portfolio transaction costs. The trading expense ratio represents total commissions and other portfolio transaction costs of the underlying Tax Managed Fund expressed as an annualized percentage of the daily average Transactional NAV of the Tax Managed Fund during the period.
- ⁵ The Fund's portfolio turnover rate is represented by its proportionate share of that of the Tax Managed Fund. The Tax Managed Fund's portfolio turnover rate indicates how the portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Tax Managed Fund buying and selling all of the securities in its portfolio once in the course of the period. Typically, the higher a fund's portfolio turnover rate, the greater the trading costs payable by a fund. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
